ANTIOCH LIONS PLAN THREE-DAY AUG. FESTIVAL

Committees on Arrangements Will Be Named Monday

The Antioch Lions club is making plans for a three-day festival to be held in Antioch the middle of August. Next Monday night the plans will be worked out in detail at the club meeting, and committees appointed for the various arrangements.

As yet everything is "in the air" but it is certain that forthcoming arrangements will provide for a bright midway, bicycle and foot races and other spirited contests.

The Antioch Lions club, organized only a year ago, has proven an asset to the city. The club has been tireless in promotional work. The members promoted the prize fish program for the Antioch region, provided a public parking lot, sponsored a splendid program of community advertising for which they maintained a booth at the Daily News travel show at the Stevens hotel in Chicago, and erected a large and effective sign at the intersection of highways 173 and 41.

Walter Scott is heading the club as president for the coming year, with Dr. D. N. Deering as first vice president, Robert C. Abt, second vice president, Roy L. Murrie, third vice president and Frank D. Powles as secretary and treasurer. Directors are James F. Horan, O. E. Hachmeister, W. A. Roseng and R. G. Holtz. George Wagner will function as Lion Tamer and Geo. W. Jockdicke as Tail Twister.

STREET PROGRAM NOW COMPLETED

City Streets Are Now in Condition for Summer Traffic

The Antioch street improvement program was completed last week, and there will be no more street work going on through the summer. The arterial streets were given a bituminous treatment and the other streets were oiled, so that the streets are presumably in a condition to stand the summer wear and tear.

Among the arterial streets Spafford and Harden were given a needed bituminous treatment and Orchard and Hillside were treated to a sealcoat bituminous process, following the original bituminous coat of two or three years ago. Quality street work was given the bituminous treatment, although this street was not included in the original repair program. The cost of the repair to arterial streets was paid by the State Motor fuel tax fund and the work was under State highway supervision.

The oiling of the other streets was done by the village and the cost paid by the road and bridge fund.

Antioch Tavern Robbed Thursday Evening

Bud's Tavern of Antioch was robbed Thursday night after closing hours. About \$50.00 was taken from the cash register, but the stock of beverages was untouched. This gave rise to the belief that the robbery was the work of amateurs. The place was entered by a rear window.

The Reeves drug store was entered a little more than a week ago; no statement was made as to how much money the thieves secured there. No clues were left behind in either case.

M. E. Church Conference Held Here Last Night

The quarterly conference meeting of the M. E. Church was held at the church last evening. District superintendent A. T. Stephenson was present, and forty guests sat down to the potluck dinner prepared by the ladies of the church.

A business meeting followed the dinner. Rev. W. C. Henslee, pastor, gave the year's report, and similar reports were read by the heads of the different departments and organizations. The evening closed with a musical program with Mr. Hans Von Holywede at the organ. After rendering a masterful solo, Mr. Hofwede accompanied the other numbers. There were solos by Miss Ruth Ona Nelson and several selections were rendered by a trio composed of Miss Nelson, Miss Betty Lou Williams and Janet Whited. Other numbers were given by a male quartet, comprising Robert Burke, Windsor Dalgard, Robert Strang and Fred Zilke.

Lake County Firemen Thank Antioch For Anniversary Party

Antioch firemen are no duds when it comes to throwing a party, because the president of the Lake County Firemen's Association says so. He ought to know, since the Association was present in a body at the firemen's twenty-fifth birthday party a couple of weeks ago.

A letter received by the local department from the officer of the Lake County Association contains the assurance that the party at Antioch, of all the county firemen's parties, was absolutely tops. It was the one party, according to the letter at which the best time was "had by all."

MRS. GEORGE FAULKNER DIES AT WILMOT, WIS.

Member of Pioneer Family Is Buried This Afternoon

Mrs. George Faulkner, one of the oldest and best-known women in western Kenosha county, died of a heart attack Tuesday at her home in Wilmot, Wisconsin.

Mrs. Faulkner was before her marriage Miss Carrie Lillian Udell, the daughter of Thomas C. and Phoebe Jones Udell, who were pioneers in Kenosha County, having settled in Salem township in the early days of the century.

Carrie Lillian Udell was born Oct. 21, 1864; she was educated in the Trevor public schools and in the White-water Normal school. As a young woman she spent several years in the teaching profession, then was married in 1891 to George Faulkner, who survives her. They lived on a farm near Trevor during the early years of their married life, then moved to Wilmot where Mrs. Faulkner for many years identified herself with church and civic movements and was known as a charitable, interesting and public-spirited woman.

Her body lay in state for one hour this afternoon in the Wilmot Methodist church, where she was an active member for many years. Interment at the Liberty Corners cemetery took place later in the afternoon with Rev. E. Kistler of Salem officiating.

Besides her husband, Mrs. Faulkner leaves five nieces and one nephew.

McHENRY COUNTY SPENDS HER SHARE

Five Projects to Be Financed with P. W. A. Funds

McHenry County let no grass grow under her feet in making application for her part of the new PWA appropriation. Already she has had assurance of the approval of grants that total \$147,748.00 for five projects in different sections of the county. This will put more than 200 men to work, which means support money for somewhere around 800 persons, in case each of the two hundred men head the average family of four.

Hebron gets a \$12,000 project for road improvement. Chemung township gets a road building project to cost \$27,000. Harvard is allotted \$30,800 to be used on improvement of city streets. Marengo will have \$33,784.00 for the construction of a badly needed city sewage disposal plant.

DEATH TAKES AUGUST MUELLER

Oldest President of Petite Lake Will Be Buried in Chicago

August C. Mueller, one of the oldest and most highly respected men in this section of Lake county, died at his home at Petite Lake yesterday at 5 p. m., after a long illness, during which he was attended by Dr. Bratrud, of Antioch.

Mr. Mueller is said to have been the first settler on Petite Lake, and was 75 years old at the time of his death. He was born in Germany and came to America when a lad of fourteen. He is survived by his wife, who will continue to make her home at Petite Lake for the present. The couple had no children.

The funeral will be held tomorrow at 3 o'clock, p. m., at Nielsen's funeral home, 3301 Fullerton Ave., Chicago. Interment will follow at Waldheim cemetery.

LAKE COUNTY PUPILS GET FEDERAL AID

Local Boys and Girls Benefit by National Student Aid Fund

One hundred and fifty-one Lake county pupils benefited directly by the National Youth Administration Student Aid Fund, the purpose of which is to enable students to continue their studies during times of family adversity.

Of the \$1,049,054.84 expended throughout the state of Illinois there was approximately \$4,500.00 spent in Lake county. A detailed report of this expenditure in the various schools of the county is given below.

Schools	No. of Students	Amt.
Barat College	6	\$ 622.50
Lake Forest College	54	3,780.00
Antioch Twp. High	6	324.00
Grant Community High	7	180.40
Warren Twp. High	6	295.48
Ela Twp. High	12	204.25
Libertyville Twp. High	12	429.52
Wauconda High	5	143.70
Waukegan Twp. High	21	761.10
Zion Preparatory	6	272.81
Highland Park High	13	442.34
Lake Forest High	3	152.10

Students receiving NYA aid in colleges and high schools are employed part time after school hours at necessary and desirable work. High school pupils receive a maximum of \$6 per month; undergraduate college students an average of \$15 per month and graduate students an average of \$25 per month.

McHENRY CO. MAY FLOAT STORM BONDS

Damage Done by Rains Requires Repairs Near \$100,000

The destruction of property that was done by the heavy rains of the last few weeks has put McHenry county on the spot, running up a damage of some \$19,000, conservatively estimated, to the county road and bridge system. This figure is irrespective of damage done in corporate limits of villages, in which cases the damage must be repaired by the villages and not by the county.

According to McHenry county press reports the county is faced with a bonded indebtedness for the first time in the one hundred years of its history. The Woodstock Sentinel, a daily publication of Woodstock, has the following to say about the situation:

"Since all the townships levied the legal maximum in road and bridge tax and still have no funds with which to meet the emergency, the township highway commissioners can, under the state law, petition the board of supervisors for county financial aid in repairing the storm damage to bridges and roads.

"A similar situation occurred in 1937 and the county was forced to spend some \$55,000 from its general fund on township projects."

Lady's Day Play Grows in Favor

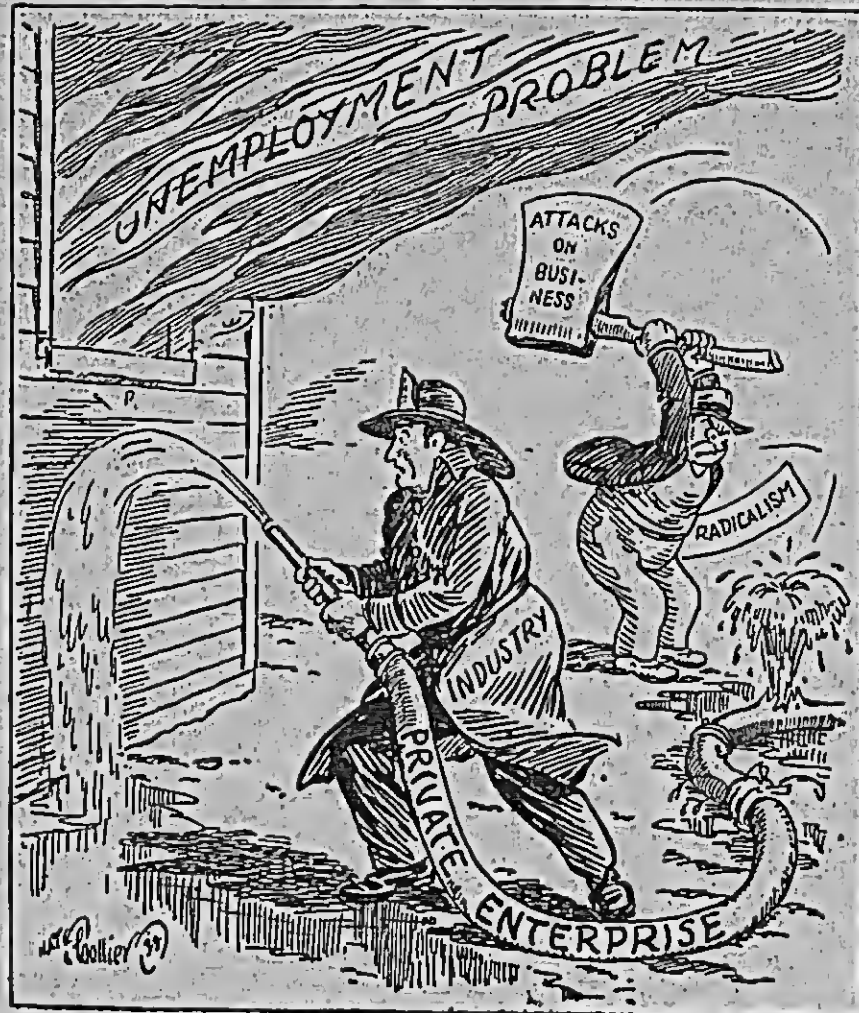

The heat of last Monday had no wilting effect on the Ladies Day crowd at Chain O' Lakes Golf club. There were as many women in attendance as usual and the games were vigorous and enthusiastic despite the climbing mercury.

Twenty-six women took part in the bridge games or chased a golf ball about the greens, and gathered in a merry luncheon group at one o'clock. The bridge prizes went to Mrs. David Deering, Mrs. E. M. Runyard, and Mrs. Ernest Brook. Mrs. J. Gerber and Mrs. Ernest Brook were winners at golf.

Dog Thieves Are Grabbing The Thoroughbreds

A number of thoroughbred dogs have disappeared in and around Antioch during the last three weeks. The frequency of the occurrence gives rise to the conviction of the dog owners that the dogs are being stolen by a thief or gang of thieves who are preying on thoroughbreds, possibly disposing of them for a fraction of their worth at some Chicago pet shop. Owners of dogs will do well to keep them under watch. Antioch owners have lost pointers, bull-dogs, whippets and chows.

DROP THAT AXI

Damaging Fire Occurs At Sunset Camp

Fire broke out at Sunset Camp on Channel Lake at noon last Friday. The Antioch fire department was called by Miss Miriam Finkelstein, director of the camp, who was enthusiastic in her praise of the efficiency of the department. The prompt response of the firemen and the efficiency with which they handled the situation saved the building from complete destruction.

The fire started, it is believed, from an overheated kitchen range. Considerable damage was done to the kitchen, but the loss is fully covered by insurance.

Sunset camp is a recreation camp for underprivileged children, operated by a philanthropic organization. There are sixty children vacationing at the camp at present, but they were all absent on a picnic at the time of the blaze.

MIDNIGHT STORM MAKES HAVOC

Wrecks Grain, Houses, Trees, and Destroys Slumber

The electrical storm of Tuesday night did more damage to the grain crops of the county, destroyed a tenant house and a barn in different localities, and started some of the lake waters rising again just as they were about to reach normal after the flood of a week ago.

The storm broke with full fury about midnight and was pretty general over the county. Heavy winds prevailed for the better part of an hour and the electrical display was unusually brilliant. The downpour of rain was followed in some sections by hail.

According to farm bureau adviser Gilkerson, of Grayslake, the rain, hail and wind served to beat the already damaged grain crops down a little more. This was the only crop damage.

The Nippersink river was reported rising again yesterday, contributing to the return of high waters to Fox Lake, which suffered most of all the lake regions during the recent flood.

In Antioch a tree was split by lightning on the lawn of the Irving Elms home, adding a note of terror for the awakened family.

More Milk and Lower Prices for Wisconsin Dairymen

Milk production continues at high levels in Wisconsin, but milk prices are lower than they were a year ago, according to the Crop Reporting Service of the Wisconsin and United States Departments of Agriculture.

While farmers in the state are hauling more milk to factories and market milk plants, their checks are smaller than a year ago. Milk prices for June averaged 24 cents less per hundred pounds than a year ago. Reports from Wisconsin crop correspondents indicate that the June milk price was \$1.20 per hundred pounds compared with \$1.44 a year ago. Milk prices are now about the lowest they have been for any month since July 1935. With the decrease in consumers' purchasing power and increased stocks of some dairy products, milk prices have declined rapidly since the first of the year. More abundant feed supplies and lower prices in the past year have also tended to lower the price of milk.

ANTIOCH GOES AFTER NEW CITY HALL

Mayor and Council Will Ask F. W. A. Project for Building

Antioch is going after her share in the Federal spending program which is now underway, actually put into operation two weeks ago. Mayor George Barlett stated yesterday morning that plans are going forward for application for PWA aid in the building of a new city hall, which is the most desirable project for the city of Antioch.

In order to secure the project the city must match the PWA appropriation with money of her own. There is available at present a few thousand dollars of motor funds that could be applied to the building, the rest of the money necessary must be raised by bond issue with the approval of the people.

It is suggested that the new city hall should occupy a part of the lot purchased by the city for a post office site: the lot now the site of the Ball hotel at the corner of Main and Orchard streets, is large enough for both buildings.

The initiative in applying for PWA grants rests entirely with the municipalities. PWA does not solicit applications and it is required that any public construction financed by WPA be sound from a legal, financial and engineering standpoint and socially desirable.

According to Congressional provision no application for grants will be accepted after Sept. 1, so that any municipality desiring a part in the Federal program has about sixty days left in which to make application.

Up to date Illinois communities and municipalities have already received grants for 97 projects, aggregating more than \$13,342,000, and close to a thousand additional requests for grants have come in from different municipalities.

JIM FARLEY VISITS WAUKEGAN SAT.

Postmaster-General Jim Farley, chairman of the Democratic National Committee, stopped in Waukegan for about five minutes Saturday night en route by special car to Chicago.

The Farley train arrived at 6:55 and was greeted by a group of Democrats, interspersed with a few Republicans. It was observed that all Democratic factions were represented in the crowd, although they seemed to meet on the same footing with some reluctance.

Postmaster Joseph P. Daly, of Waukegan, a personal friend of Farley, was perhaps the only one in the group of aspiring and perspiring postmasters present, to get a few intimate words with the master politician of them all. Farley stepped smilingly from the platform to grasp Daly's hand and incidentally received a big bouquet of roses from Mrs. Daly, who accompanied her husband. After that it was a sort of free for all between the reporters, the cameramen, the star Democrats, and a few candidates and ex-candidates who recognized the campaign value of seeming to be on chummy terms with the Democrats' chief.

The passing and ogling of the spectators necessarily made it a little difficult for the majority of those who might have benefited by a photograph showing them standing, smiling and chummy, at the side of the Postmaster-General, and only one man surmounted the obstacles. As luck would have it this was Joe Elward, who is seeking to replace Ralph Churchill as Congressman from the Tenth district.

The press was pretty well represented at the station, too, and subsequent news stories about the event agreed that the Farley personality, so far as reporters could sum it up in the brief time of five minutes or a bit less, had not been boosted to the sky without reason.

Lightning Destroys Tenant House on White Farm

Lightning struck the unoccupied farm house about a mile east of the George White home near Antioch yesterday morning at 6 o'clock and burned it to the ground.

The Antioch fire department was called out but arrived after the house was leveled, so efficiently did the bolt from the skies do its work. The loss was estimated at about \$750 and was covered by insurance. The house, ordinarily used as a tenant house, was owned by Mr. White.

ANTIOCH ANGLERS DRAW PRIZE FISH

Last Week-end Was Lucky for Lovers of the Sport

From here and there about the Lake region comes reports of the nice fishing of the previous week. It is related that Spring Lake yielded one fisherman some 13½ pounds of choice bass last Wednesday. The fisherman was one J. Klein, of 3010 Milwaukee ave., Chicago, who was a guest of Fred Wohlfel of Fred's Tavern.

H. L. Cox, of 633 N. Humphrey avenue, Oak Park, was a week-end guest of the Merry Glen Hotel on Lake Marie, and he didn't do so badly, since he drew out one \$2.00 prize fish, also a black bass. It is reported that pickerals, bluegills and bass are faring pretty badly of late at the hands of Lake Marie anglers.

There were apparently no Antioch prize-winning fish caught over the week-end, as officials of the Antioch Lions club report that no claims have been made for prize money. Antioch has furnished her quota of lucky anglers, however, since the fish were thrown into the various lakes of the region.

Edward Lemke, of Antioch, pulled a \$1.00 winner out of one of the lakes. La Verne Davidson got one that paid \$2.00. John J. Morley, Jr., got another \$1.00 baby, and Jack Chalupa drew a \$2.00 one. None of the big prizes have been claimed by Antioch people, but the season is young yet.

Wrestling Card Looks Like Good Fun

There will be a wrestling match at Peg's Open Air arena, Grayslake, tomorrow night that ought to be good. Rudy Kay, touted by the publicity writers as the "most hated wrestler ever to hit Lake county," will lock horns with Ralph Garibaldi, whose popularity is a good foil for Kay's nil. Kay it will be remembered, held Jim McMillen to a one round draw at Round Lake a year ago and before that won seven pro starts in succession over all comers. Tomorrow night he will meet Garibaldi in a one-match fall to the finish as one of the features of the evening.

The main feature match will be between the college-bred wrestler, Ruffy Silverstein and Slugger Jack Conley, of Boston. Conley defeated Jim McMillen before 23,000 fans in the Chicago stadium last winter to win the Illinois State Professional Heavyweight championship. There will be several good preliminaries.

Rossetter Barn Is Struck By Lightning

The barn on the farm of George Rossetter, 3 miles southeast of Libertyville, was destroyed by lightning Tuesday night. Three hundred chickens that were in the barn were lost but all the stock was outside for the night. The barn was covered by insurance. Mr. Rossetter and all his family, with the exception of the oldest son, were away on a vacation trip. The son saw the quick destruction of the barn before fire departments could bring help.

Do It the Hard Way

Daniel Boone was once asked by a friend if he were ever lost in the woods. "No, I never got lost," said Daniel, "but I was bewildered once for three days." This anecdote was related to a graduating class at Olivet College, Michigan, in a commencement address by Harlow H. Currice, president of the Buick Motors to illustrate the common fallacy of today in which humanity finds itself looking for short-cuts to salvation. The address stands out above thousands of others throughout the country because it is entirely free from dolorous sympathy for graduates facing what has been so frequently referred to this June as the responsibility of "setting foot into an economic world that has gone askew," a world barren of opportunity with no welcome for the young men and women who come into it eager for advancement.

"I have no patience with that point of view," challenged business leader Currice. "Are all the old tasks finished, all the new ones begun? Is there no call for courage, for diligence, for understanding, for wisdom, for invention, for self-reliance, for leadership? Have we found the perfect solutions for all our problems—for unemployment, for justice as between all men, for unity among all our people?" Reviewing these matters he found that right now "the times are far richer in opportunity than we have ever known," and he added: "It is your future that is concerned. In that sense, you graduates are like my friend Charles Kettering, who once said: 'Of course, I am deeply interested in the future. From now on I am going to do all my living there.'"

"Do it the hard way, think ahead of your job. Then nothing in the world can keep the job ahead from reaching out for you. I know this sounds old fashioned. It is, but it has built the world. . . . Be bold, knowing that finally no one can cheat you but yourself. Have a purpose, as the old Scotch preacher had in his prayer: 'Oh Lord, guide us aright, for we are verra, verra determined.'"

Scandinavians - Americans

The Scandinavians landed on our country's shores about 400 years before Columbus "discovered" it. But the Swedes are generous-minded people and know that a lot of history is "bunk." So they point with swelling

bosoms to the fact that they made a settlement in Delaware just three hundred years ago. The event has just been celebrated, and the Governments of Sweden and the United States participated in the ceremonies at Wilmington.

Delaware is as proud of her Swedish history as Virginia and Massachusetts are of their English traditions and history. The English captured us, and we had to lick them in the eighteenth century, and again in the nineteenth century to "make 'em let go." But the Swedes and other Scandinavians just moved in quietly and in these three centuries they have furnished us great statesmen, great business and professional men.

Swedes, Norwegians, Danes, and Finlanders have never overstepped the written, or unwritten laws, of our Republic. When we see how some of our other aliens misbehave we wish that they might be sent out of the country and be replaced by more of these fine Scandinavian people—who are always in a hurry to take out their papers and become American citizens.

Believing in Signs

A good many of the latest official reports are optimistic. The Department of Commerce which is rather cautious in its conclusions, has hopes of a business pick-up in the near future.

A good many lines of business are feeling the beneficial effects of Government purchases. Careful observers in Washington believe that the investing public is ready—with lots of hoarded and hidden money, to return to the investment markets and pour new capital into business.

The action of the Government in opening the gates for more "careless banking" in the way of "elastic lending" is hailed by the administration as a big thing for business men. Well, maybe! Suppose you ask your own banker's opinion. He likely knows the answers better than the Government's money-managers.

Now, It's the People

The people have their chance. It is up to them to consider the interests of the United States and follow their own judgment, as patriotism directs. They will be as near right as the political planners and leaders who make their living out of politics.

The Good Earth Answers

Wheat, corn, cotton and other crops are bringing good cheer to the people in many sections of the country where these products of the soil are their money. Country newspapers everywhere tell of the good luck of their communities because "crops look good." That's big business for the farmers.

MILLBURN

Mrs. Robert Erwin returned to her home in Waukegan on Friday after caring for her mother, Mrs. George Edwards for the past five weeks. Mrs. Edwards is now at the Erwin home recuperating.

Mrs. Eva Alling left Sunday morning for a two weeks' vacation trip through the southern states.

Mr. and Mrs. Frank Edwards and Mr. and Mrs. J. Kaluf attended funeral services for the latter's father, John Bink of Lansing, Illinois, on Monday, July 11th.

Mr. and Mrs. Harry Keefe and daughter, Barbara, of Druce Lake called at the J. Kaluf home Wednesday.

There was a good crowd in attendance at the ice cream social sponsored by the July committee of the Ladies Aid which was held at the church Friday evening.

Shirley Mae Hollenbeck of Jersey City, New Jersey, is spending several weeks at the home of her grandparents, Mr. and Mrs. O. L. Hollenbeck.

Mr. and Mrs. W. E. Fritz and daughter, Charlotte, of Waukegan were dinner guests at the Victor Strang home on Sunday.

Lura Jean Minto, who underwent an operation for appendicitis at the Kenosha hospital last Thursday, is making a good recovery.

William Findlay and son, Billy, of Evanston, were guests for supper at the J. H. Bonner home Saturday.

Mrs. William Washo and Miss Alice Washo of Barrington were callers at the Eric Anderson home Sunday afternoon.

E. A. Martin spent Monday in Chicago.

The Millburn Maidens annual achievement day will be held at the school house, Wednesday, July 20th, at 2 o'clock.

Mrs. Eric Anderson and Lois Bonner attended a school of instruction on outfits for 4-H girls held at Farmers' Hall in Grayslake, July 8th.

The Millburn Maidens held their eighth meeting at the home of their leader, Mrs. Eric Anderson, on July 6th. Lura Jean Minto gave an interesting demonstration on "Cutting and joining bias." Lois Truax discussed "Proper Sleeping Habits." LaVergne Harkensee gave a demonstration of testing fabrics showing the thumb test, shrinkage test and burning test. The next meeting will be July 13th.

TREVOR

Mr. and Mrs. Charles Oetting were business callers in Kenosha Thursday morning.

Mrs. George Faulkner, Wilmet, called at the Ira Brown home and Patrick sisters home on Tuesday afternoon.

Mrs. Ada Flood, Cicero, Ill., is visiting at the A. J. Baethke home.

Mr. and Mrs. Haynes and Mr. and Mrs. Henderson, Racine, surprised their uncle and aunt, Mr. and Mrs. T. Schultkins, on Tuesday evening with a picnic dinner which was enjoyed on the lawn.

Mr. and Mrs. Charles Oetting, Mr. and Mrs. Joseph Smith, Mr. and Mrs. John Nehring and Valieta Beyer, Paynesville, Minn., were Wednesday evening dinner guests of their nephew

and niece, Mr. and Mrs. Irving Elms, Antioch. Thursday Mrs. Joseph Smith, Mr. and Mrs. John Nehring and Valieta Beyer visited their sister, Mrs. Samuel Mathews and family, Kenosha.

Miss Sarah Patrick with her guests, George Collier, Farmer City, Ill., his son, Arnold, St. Petersburg, Florida, and D. C. Gollier, Kansas City, Mo., visited the former's brother and the latter's cousins, Hiram Patrick, and the William Krueckman family, Burlington, Wednesday evening, and on Thursday visited their cousins, Fred Sabo and family at Watertown, Wis.

Mrs. Elmer Flanning and children spent Sunday with her parents, Mr. and Mrs. David Eilers, Burlington.

Her sister, Ruth Eilers, returned home with her for a week's visit.

Mr. and Mrs. George Rohnow and children, Kenosha, spent the week-end with Mrs. Rohnow's parents, Mr. and Mrs. William Evans.

Mr. and Mrs. James Lamb, daughter, Betty Jane, and Mary Jane Holub and Mrs. Helen Hallett, Kenosha, called at the Joseph Smith home Sunday.

Mrs. George Brown, Bristol, called on the Patrick sisters Sunday afternoon.

Miss Florence Gripe spent the week-end at the Charles Oetting home.

Mr. and Mrs. George Hallett, daughter, Margaret, Mrs. Vern Hunsont and mother, Mrs. Helen Hallett, Kenosha, were callers Sunday at the Joseph Smith and Charles Oetting homes.

Mr. and Mrs. John Bauer and father, Hugo Bauer, spent over the week-end at their cottage at Shore View.

Mr. and Mrs. Phil Levandoski and family left Friday for their new home at Grand View, Wisconsin.

Herman Oetting, son, Herman Oetting, Jr., and grand-son, Binky Oetting, Perryville, Ill., who spent Sunday at the William Bushing home near Bristol, called on his brother, Charles Oetting, and family.

M. and Mrs. Gus Fanslow, Chicago, who spent the week-end at their summer home at Camp Lake Oaks, called at the A. J. Baethke home Saturday.

Miss Elvira Oetting and Arthur May, Madison, and the former's sister, Mrs. Kenneth Stockton of Manakato, Minn., enroute to Valdefe, North Carolina, by auto to visit their brother, Fritz Oetting, who is playing in the baseball league there, called on their parents, Mr. and Mrs. Oetting, Sunday morning their brother, Louis Oetting, accompanied them on a week's trip.

Charles Flood and Joseph Taraba, Cicero, Ill., spent over the week-end with Mr. and Mrs. M. Johnson. Mrs. Johnson returned home with them for a week's stay at the Flood home.

Mr. and Mrs. John Nehring and Valieta Beyer of Paynesville, Minn., left for their home Tuesday morning by auto after spending the past ten days with their sister and brother-in-law, Mr. and Mrs. Joseph Smith and other relatives.

Gilbert Neilsen, Racine, visited John Dahl, Saturday.

Louise Elms, Antioch, spent over the week-end with Valieta Beyer.

Old Lithuanian Instrument
The kankles is an ancient Lithuanian instrument used by the "Seers," to chant the saga of the Lithuanian folk. In the old days the Vajdyla, or seer, wandered minstrel-like around and chanted the Lithuanian saga to the tune of the kankles.

LAKE VILLA

Lake Villa Com. Church (M. E.)
Sunday School—10:00 A. M.
Worship Service—11:00 A. M.

Our summer visitors will receive a cordial welcome to any of our services.

I. B. Allen, Pastor.
The Ladies Aid Society will meet Wednesday, July 20th, with Mrs. Stella Pedersen at her home and all are welcome. The meeting will be called to order at 2 o'clock. The ladies will hope to see you at the annual summer sale at the village hall during the afternoon and evening and will offer a number of attractive articles of fancy work, aprons, rugs, children's articles, etc., during the afternoon and evening. A white elephant sale during the afternoon and a style show during the evening, with refreshments at all times will help to entertain you.

The official board of the church will meet with Mr. and Mrs. C. H. Hamlin at their home Friday evening for the regular July meeting.

Mrs. Frank Nader is enjoying a visit with her daughter, Mrs. Alquist and family at Chippewa Falls, Wis.

The curbing on Cedar Avenue is finished and the work of leveling and grading on the side is being done this week.

The Village Board met in regular session at the hall Monday evening of this week as last Monday evening was a holiday and no meeting was held.

Mr. and Mrs. C. A. Blumenschein returned early last week from a four day trip into Iowa, Minnesota and Wisconsin, where they visited relatives and friends.

Mrs. Oscar Douglas returned home this week from St. Theresa hospital and is recovering nicely from a minor operation performed last week.

Mrs. A. Natta and son, Arthur, and Mrs. D. Lux of Waukegan were guests of Mrs. Lester Hamlin last Friday.

Mrs. Hart of Chicago spent from Friday until Monday with her son, E. K. Hart, at the Tronson home while Mr. and Mrs. Tronson enjoyed a short vacation.

HICKORY

Miss Mary Madsen visited friends in Chicago last week.

Mr. and Mrs. H. A. Tillotson and Carl drove to South Milwaukee last Sunday afternoon. Miss Ester Rojacki, who has been visiting Carl for the past week, returned to her home there.

The Philip Gould family of Grayslake visited the W. D. Thompson family Thursday evening.

Mr. and Mrs. Will Thompson and Helen were Sunday dinner guests at the Wilbur Hunter home near Mundelein.

Miss Virginia Wells has been visiting relatives in Washington, D. C. Mr. and Mrs. Hogen Paulsen and family of Chicago spent Sunday with Mrs. Hilda Willson.

Mr. and Mrs. Rothbro of Waukegan visited the Nels Nielsen home Sunday afternoon.

Mr. and Mrs. Ray Harmer of Waukegan visited Mr. and Mrs. Chris Cook Sunday afternoon.

Emmet King, Mrs. Gerhardt Lange and Barbara drove to Waukegan, Wis., last Saturday on business. They stayed over night with an aunt and uncle of Mrs. Gerhardt.

Mr. and Mrs. Frank McCarthy of Antioch, and Mrs. John Stevens and son, Lloyd, also Miss Grace Wells were Kenosha callers on Monday evening of this week.

ADJUDICATION NOTICE

PUBLIC NOTICE is hereby given that the undersigned Administratrix of the Estate of Peter Wolf deceased, has fixed upon Tuesday, the 6th day of September A. D. 1938, as the return day for the hearing of all claims against the above named Estate. All persons having claims against said Estate are hereby notified and requested to attend the Probate Court of Lake County, Illinois, on said date at ten o'clock A. M. for the purpose of having said claims adjusted.

(Signed) ANNE WOLF
Administratrix of the Estate of Peter Wolf, deceased.

Waukegan, Ill., July 7, 1938.
Runyard & Behanna, Attorneys for Administratrix, Waukegan, Illinois.

Swansons Entertain at Dinner Party

Mr. and Mrs. F. B. Swanson entertained Tuesday evening with a turkey dinner at the Paul Ferris picnic ground at Lake Marie.

The guests arrived a little before six o'clock and dinner was spread on the picnic tables. It was followed by an hour of visiting after which the host and hostess took their guests to see the Ritz Bros. at their theatre in Antioch.

Among those present were the following Antioch persons: Mr. and Mrs. John Gaa, Mrs. O. E. Hachmeister, Mrs. A. Trieger, Mrs. H. B. Gaston, Mrs. C. E. Hennings, Misses Grace and Anna Drom, Mrs. Evan Kaye, Mrs. A. Rosenfeldt, Mr. and Mrs. Paul Ferris and daughters and Samuel E. Pollock; out of town guests included Mr. and Mrs. Chas. E. Jack, Mr. and Mrs. Geo. Morse, Mr. and Mrs. James Finn and Mr. and Mrs. A. Thomas.

R. T. Dickson Comes Home

R. T. Dickson, formerly of Antioch, but now a resident of Phoenix, Arizona, was in Antioch last week to look after the business of settling his mother's estate. He was a guest of Al's Chateau, south of Antioch, and according to the manager, Albert Kumpfer, expects to return for a longer stay later in the summer.

The hotel Chateau, recently taken in charge by Mr. and Mrs. Kumpfer, formerly of Chicago, has been thoroughly renewed by them, and the management, contrary to many resort keepers, express themselves as perfectly satisfied with business conditions in the Lake locality despite the inclemency of the early season.

MRS. W. C. PETTY ELECTED PRESIDENT OF LADIES AID

Mrs. W. C. Petty was the unanimous choice for president of the Methodist Ladies Aid at the annual election of officers held Wednesday afternoon at the home of Mrs. A. P. Bratrude. Other officers elected also by unanimous vote were: vice president, Mrs. C. L. Kuffel; treasurer, Miss Lottie Jones; secretary, Mrs. Harry Messing.

Mrs. Petty succeeds Mrs. William Runyard as head of the society which for the past three years she served very efficiently. The retiring president presided at Wednesday's meeting and graciously congratulated her successor.

R. N. A. MEETING HELD AT NELSON HOME

Mrs. Lester Nelson and Mrs. Eleanor Edgar entertained the members of the Royal Neighbors of Olson Camp at the Nelson home Tuesday evening, with a lawn party. Out door games were played and prizes awarded the winners. Ice cream and cake was served to twenty-five guests.

MR. AND MRS. WERTZ PARENTS OF SON

Mr. and Mrs. C. W. Wertz are the parents of a son born at Victory Memorial hospital, Waukegan, Sunday, July 10th.

R. N. A. OFFICERS CLUB TO CONVEY JULY 27

Mrs. Nellie Hanke and Mrs. Eleanor Edgar will entertain the Royal Neighbors Officers Club and members of Olson Camp at the home of Mrs. Hanke, July 20th.

Reindeer Is Essential to Existence of Lapps

The reindeer is absolutely essential to the existence of the nomad Lapp. His herd supplies him with food, clothing, and shelter, according to an authority in the Chicago Tribune.

The people eat reindeer meat all the year 'round—the fresh meat in autumn and winter, smoked and salted in spring and summer. Their winter garments, their blankets and bedding are reindeer skins and furs. The tents or tepees are hung with reindeer skins for warmth. Most of the Lapps' simple and limited household gear is made from reindeer hide, horn, and bone. Coarse thread, string, and heavy cord are manipulated out of the sinews.

The babies' cradles and the pulkas are made with reindeer hides. The pulkas are the odd-looking little sleds or sleighs without runners that rest flat on the snow. They are shaped like the front end of a small canoe cut in half, pointed in the bow, and cut square across the rear end. These are drawn by reindeer, and the driving harness is made from reindeer sinews.

The Lapp cannot live without the reindeer; the reindeer cannot live without the Lapp.

The Lapp is not adaptable to any other mode of living. City or industrial life in the factory or office is impossible to him. These vast northern territories are uninhabitable for any human beings except these people. They live and thrive in hardships that white men will not endure. The Lapp is hardy despite his small stature and light weight.

CHRISTIAN SCIENCE CHURCHES

"Sacrament" was the subject of the Lesson-Sermon in all Churches of Christ Scientist, on Sunday, July 10.

The Golden Text was, "Let us keep the feast, not with old leaven, neither with the leaven of malice and wickedness; but with the unleavened bread of sincerity and truth" (1 Corinthians 5:8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Have mercy upon me, O God, according to the multitude of thy tender mercies blot out my transgressions. Create in me a clean heart, O God; and renew a right spirit within me. Restore unto me the joy of thy salvation; and uphold me with thy free spirit" (Psalm 51:1, 10, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "We cannot choose for ourselves, but must work out our salvation in the way Jesus taught. First in the list of Christian duties, he taught his followers the healing power of Truth and Love. It is the living Christ, the practical Truth, which makes Jesus the resurrection and the life to all who follow him in deed" (pp. 30 and 31).

Doctrine of Moravian Church

The Moravian church has no doctrine peculiar to itself. It is simply and broadly evangelical, in harmony with Protestants generally on the essentials of Christian teaching, and is bound by no articles on the points of differences between the historic Protestant creeds. The Moravian principle is "In essentials unity, in non-essentials liberty, in all things charity." It holds that the Holy Scriptures, giving man the inspired word of God, make sufficiently clear all that is essential to salvation and are an adequate rule of faith and practice. It accepts the Apostles' creed as formulating the prime articles of faith found in the Scriptures, and emphasizes the personal mediatorship of Jesus Christ as very God and very man, in His life, sufferings, death and resurrection.

New York, "Empire State"

New York appropriated the title "Empire state" when it surpassed all other states in population, commerce and wealth. New York, N. Y., is sometimes known as the "Empire city." On December 2, 1784, in reply to an address of the common council of New York, General Washington wrote as follows to Mayor James Duane: "I pray that Heaven bestow its choicest blessings on your city; that a well-regulated and beneficial commerce may enrich your citizens, and that your state (at present the seat of empire) may set such examples of wisdom and liberality as shall have a tendency to strengthen and give a permanency to the Union at home, and credit and respectability abroad."

Rich Men Owned by Property
Robert G. Ingersoll said, "Few rich men own their property. The property owns them!"

Personals

J. O. Y. Sunday School Class Meets
Forty members of the J. O. Y. Sunday school class of the Baptist church of Woodstock picnicked at Channel Lake last Sunday, using the Gaston cottage there as the base of their pleasure-making. The class assembled at 4 o'clock for swimming and boating, and gathered at the cottage for lunch and held their business meeting in the evening.

The Rev. H. M. Kerr talked briefly at the meeting, touching on the enjoyment of the day. Devotions were led by Mrs. Kerr, and class president H. E. Shepard conducted the business session. The class holds a meeting of this nature each month.

Miss Louise Elms, daughter of Mr. and Mrs. Irving Elms spent the week-end with Valieta Beyer at the home of Mr. and Mrs. Joseph Smith at Trevor, Wis.

Mr. and Mrs. H. W. Stone of St. Louis, Missouri, are the guests of Dr. and Mrs. L. John Zimmerman this week.

Mr. and Mrs. Afonso Runyard and daughter, Billie May, and Mr. and Mrs. William Runyard enjoyed a picnic dinner at Fox River Park, Sunday.

Dennis Kennedy, small son of Mr. and Mrs. Dudley Kennedy of Lake street, has been ill the past week with a throat infection.

Mrs. John Brogan entertained the members of her bridge club, Tuesday afternoon, at her home on Spafford street.

Mr. and Mrs. W. J. Pearl of Ocean City, Missouri, and Antioch are spending several weeks with their daughter and husband, Dr. and Mrs. L. John Zimmerman, at their home at Lake Catherine.

Dr. and Mrs. Ralph Armitage and daughter, Nancy, of Lawrenceville, Illinois, spent Monday and Tuesday with Dr. and Mrs. A. P. Bratrude. The Armitages were on their way home from a five weeks trip to California, where they attended the National American Medical Convention.

Miss Jean Brett returned home Monday from a week's vacation trip to Lawton, Michigan, where she was the guest of Miss Ethel DePue.

H. B. Gaston, publisher of the Antioch News, is spending a two weeks vacation in Northern Wisconsin.

Mrs. Louise Gilbert spent Friday and Saturday with her parents, Mr. and Mrs. J. C. James, Mrs. James accompanied her daughter to Chicago Sunday and spent the day.

Ralph James and family returned home Sunday from a two weeks trip through the east.

Parker Hazen and Buddy Anderson spent last Wednesday at the Wisconsin Dells and Devils Lake.

Mr. and Mrs. Charles Oetting and Mr. and Mrs. J. Smith of Trevor and Mr. and Mrs. J. Schering and Miss Valieta Beyer of Paysonville, Minn., were dinner guests of Mr. and Mrs. Irving Elms, Wednesday evening.

Be sure to see "There's Always a Woman," at the Crystal Theatre, Antioch, Friday and Saturday, July 15th and 16th.

"Divorce of Lady X"—three days, starting Sunday, July 17-18-19, at the Crystal Theatre, Antioch. Don't miss it. Mrs. E. E. Brook and Miss Lillian Vykrota left last week for a three weeks trip to Philadelphia, Baltimore and Merceburg. At Merceburg they will visit Mrs. Brook's aunt, Mrs. Jennie McClery.

Autobiography of Franklin
Original manuscripts of the autobiography of Benjamin Franklin are in the Huntington library at San Marino, Calif.; the Library of Congress and the J. P. Morgan library.

Freedom

HUMAN experience in many cases seems to consist of an endless struggle for emancipation from various forms of oppression, physical or financial, moral or social. Is this not because freedom is too often sought only for the furtherance of worldly pursuits and the indulgence of fleshly comforts? Not that physical well-being is reprehensible, for "sufficiency in all things" (11 Corinthians 9:8) is desirable as a result of understanding God's loving care for His creation.

But dependence upon material means and humanly evolved systems for welfare and happiness, instead of dependence upon the spiritual completeness of man in God's image, constitutes bondage. On page 251 of "Science and Health with Key to the Scriptures" Mary Baker Eddy writes, "Inharmonious beliefs, which rob mind, calling it matter, and deny their own notions, imprison themselves in what they create." The question (therefore) one of freedom for something rather than merely freedom from something. Freedom for what? Freedom for gain of the highest order, by means of an intelligent understanding of God, or divine Principle.

Surely the following verse, the import of which is reiterated throughout the Scriptural narrative of the children of Israel, furnishes the secret of their deliverance: "And the Lord spake unto Moses, Go unto Pharaoh, and say unto him, Thus saith the Lord, Let my people go, that they may serve me" (Exodus 8:1). The purpose of freedom is that one may serve God.

What, then, is the significance of the words, "that they may serve me"? To determine this aright it is first of all necessary to understand the nature of Deity and man's relationship to Him.

Freedom from whatever is false and discordant is to be won by continual regard to the fact of man's perfection as God's image, and by ordering one's daily life accordingly.

"The admission to one's self that man is God's own likeness sets man free to master the 'infinite idea' (Science and Health, p. 90). The nature of this 'infinite idea' is best discerned in the character and career of Christ Jesus. His understanding of God gave him dominion over supply, so-called laws of health, gravitation, and so on. His understanding freed him from every suggestion of lack and from the mesmerism of death and the grave, and also enabled him to free others. In the wilderness he resisted the temptation to indulge personal desires and material power; for he knew and demonstrated that one is assured of freedom in proportion to his meek obedience to the demands of God revealed in Christian Science as divine Principle.

Just as the planets are not free to follow an erratic course through space, but manifest beauty and harmony each in its own orbit, so man reflects the harmony of being through fulfilling the purposes of divine Principle. Just as an attempt to open a locked drawer with the wrong key is unsuccessful, so any self-willed effort on the part of a human being to consummate something not in line with Principle necessarily induces failure and frustration, since it constitutes disobedience.

Nevertheless, divine Principle is still available in whatever circumstances one may find himself, whether apparently of his own or another's procuring. Sang the Psalmist (139:8), "If I ascend up into heaven, thou art there: If I make my bed in hell, behold, thou art there." An obedient, receptive mental attitude brings one's thoughts and one's affairs under the beneficent control of God's harmonious and dynamic law and thus opens the way to freedom.

However one is situated one can at once begin to think intelligently, truly, and lovingly by reflecting God, perfect Mind, and there are few conditions where one is not in some measure free to exercise the qualities of gratitude, kindness, honesty, wisdom, and justice, which characterize the true man. . . .—The Christian Science Monitor.

Meaning of Name "Sampler"

The name "sampler" means just what it says—a sample of stitches and designs to be copied in embroidering fine needlework. It has a very ancient lineage. Tudor maidens bent over bits of hand-spun and hand-woven linen and skeins of gay-colored silks, and our little New England girls sat primly in straight chairs and "put tiny stitches into small squares of material." An English poet in 1520 refers to "the sampler to sew on, the lace to embroider." The story continues with antiquarian interest to the middle of the Nineteenth century, when they are no longer of interest to the collector.

Hedgehog Night Prowler

The hedgehog does not generally emerge from its retreat during daylight.

A New Way to Have Shapely Legs!

THE natives of San Blas don't depend upon nature for neat ankles, shapely calves. From infancy the girls wear "leg-shapers" of tightly bound beadwork. The girls might not be able to win honors for the San Blas islands at the Olympics but San Blas husbands, in the paradise off the coast of Panama, don't want their wives to be runners!

THREE RULES FOR MARKETING CATTLE

Important Points Cited by University Expert.

By R. C. Ashby, Chief in Live Stock Marketing, University of Illinois, WNU Service.

To market fat cattle to advantage, cattle feeders can do no better than to follow these fundamental rules. Stated briefly, the three rules are to avoid overloading the market, to sell competitively and to fit cattle to the market.

In following the first of these rules, shipments will need to be adjusted to the capacity of the market to absorb them. This will require careful team work between cattle feeders and sales agencies on the markets.

To get the full strength of the market, it is necessary to sell competitively on the open competitive market, and to get the best available sales service. It is advisable to sell through strong sales agencies. By fitting cattle to the market, the third rule laid down, is meant watching them closely and selling when they become fat enough to sell to advantage.

The margin a feeder needs to carry cattle in summer—cattle that could be sold in June but might be held until September in anticipation of a higher price—depends largely upon the age of the cattle, it is pointed out.

Calves can be held much better than older cattle since they will continue to make fairly economical gains. Older cattle, however, if fat, gain little if anything during hot weather. Consequently, their entire feed bill during the holding period must be recovered by a higher selling price.

It is believed that a price increase of about 50 cents a month is needed in holding two-year-old steers in summer. Less is needed with calves, especially on 50 cent corn.

Use of Roost Poles for Turkeys Is Recommended

When turkeys reach the age of approximately ten weeks, and no longer need artificial heat, they prefer to roost in the open. At this time they may be transferred from their old brooding quarters to new range where heavy roost poles have been provided, says E. M. Funk, Missouri College of Agriculture.

A tier of roost poles made of 2 by 4 inch material laid sideways, and spaced from 18 to 24 inches apart on a platform of framing material that is 4 to 6 feet high, makes satisfactory roosting quarters for the turkeys. Posts are generally used to support the timbers on which roost poles are placed. Poultry netting or finely woven fencing wire should be used over the roost poles and around the sides of the roosting platform, to keep the turkeys from coming in contact with the droppings.

The same location for roosting quarters may be used throughout the summer and the turkeys driven to and from their daily range. This method of management will prevent the use of range some distance from where the turkeys roost. On many farms it is desirable to have them roost near the farmstead as a protection against theft. Where there is no danger of theft, roosting quarters may be changed at the time a rotation of the range is made.

Kafir Corn, Milo Maize

Kafir corn normally grows about 5 1/2 feet high and if fully developed each stalk carries one head about 10 or 12 inches in length, three or four inches in diameter and rather loosely formed. Dwarf milo maize grows four or five feet tall and develops a very compact head, slightly larger in diameter in the center but not as long as kafir and rounded at the base and pointed at the tip. The grain of kafir is white, while that of the milo is reddish orange.

Care in Feeding Horses

Digestive disturbances are among the most common ailments of horses, and a large percentage of these are caused by improper feeding, says F. H. Olney of the Missouri College of Agriculture. While horses may be affected with digestive disturbances at any season of the year, such troubles are more prevalent in the spring and fall. Food should be of the best quality, and all changes in feed, with a few exceptions, should be made gradually.

Keep Biddy Cool

Hens need assistance from flock owners during warm weather. The hens have elaborate sets of air sacs which communicate with the bronchi and extend into many of the bones. These may be regarded as accessory lungs and assist in regulating body temperature. But these are not so effective but what owners should plan to keep the flock as cool as possible during the summer, says H. M. Scott, poultry husbandry, Kansas State college.

THINGS YOU CAN DO WITH YARD OF LACE

Be Sure to Select a Crisp, Dainty Pattern.

By CHERIE NICHOLAS

The new styles give all sorts of possibilities but, even in glamorous summer, Old Man Budget sits up to make one take notice. However, there is a Cinderella touch every now and then that seems like an answer to this particular sort of "maiden's prayer."

It has to do with a yard of lace—just that. If you pick out a pattern that has a rummy design, there isn't anything to do but cut it out around the edges. And if you don't, there is only the business of doing a rolled hem all around, or if you have the spring fever, of having it picoté.

But pick your lace. Find a crisp, dainty pattern.

The first lesson is from Molyneux. When you are going out in the evening, you throw it carelessly over your head—just that little touch, but it also keeps your hair in place. Molyneux tells you also, when you arrive where you are going, to fold it diagonally, and have the duplicate of the little shawl that he made such a point of with his new evening clothes, the Winterhalter influence.

Just in case you long for a new drop-shoulder evening frock, take one of those nicely finished silk slips of yours in black or navy, or a plain evening dress, and drape the lace around the shoulders with a tiny knot in front.

But it doesn't finish its job there. Pull it through your belt, like an exaggerated bandana, with your dark "basic" dress, and you'll find it's a gay frivolous frock, brought out of sober disguise.

And either with your suit, for a new guimpe, or as a topper for that same dress, you have only to tie it around your throat, starting it straight and bringing the end around to tie in front, slip the end under your belt, and there you are.

GLOVE STYLE NEWS

By CHERIE NICHOLAS

War has not caused China to neglect Dame Fashion. Women in Koo-Ling (the Palm Beach of China) are busily crocheting for Miss and Mrs. America smart streamlined versions of the old-fashioned mitt that are so intriguing they are making current high-style glove news. Please to take notice in the picture these cunning gloves have: four separate fingers and a thumb, permitting unlimited freedom of movement. With these shallow fingers (not much more than a quarter-inch deep) you can write, look up a telephone number, button the baby's dress, drive the car or even wield a golf club without having to remove your gloves. Koo-Ling cocktail gloves are beautifully hand crocheted of very fine but strong cotton thread (black, brown, navy, white or ecru) in a variety of attractive lace and mesh patterns that add the dainty feminine, fascinating touch to a summer ensemble. Once try on a pair of these gloves and it will be a hard time anyone would have persuading you to part with them. They are that shapely, fit so perfectly and are that flattering to the hand you are sure to be charmed with them.

STYLE NOTES

Plaques go on and on. Suits of linen lace are smart this summer.

Elastic satin bathing suits are smart and new.

Side fasteners on peasant head squares achieve hood effects.

Swedish colors and design are the latest important style trend.

Dainty cotton sheer frocks are lavishly trimmed with frilly laces.

Pique jackets, flowers, gloves and other endless pique accessories are worn.

WONDERS ARE BEING DONE WITH RIBBONS

By CHERIE NICHOLAS

After you have looked about at the new dress collections the thought stays with you that this is decidedly a ribbon season. Summer dresses are given a sprightly look with little bows here and there while ribbons galore, wide, narrow in one color or in mingled tones or tri-color gayety are swathed and snatched about the waist with utmost artistry.

So utterly have designers yielded to the ribbon urge they are creating clever boleros entirely of ribbon and recently a leading Paris couturiere fashioned an entire dress of ribbon sewing it edge to edge for slender effect and for wide hemline letting the ribbon ends fly out loose over a silken foundation.

Lots of ribbons on hats this season, too, for bindings, bands and tailored bows and for floating streamers and bonnet ties are seen.

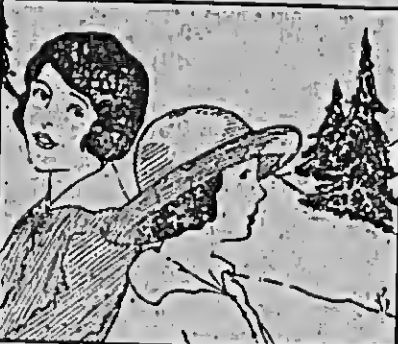

Filly-Filly Guimpes or Vestees Have Blouse Look

With the classic suit or the more softly tailored bolero-and-skirt costume you are expected to wear the daintiest, frilliest blouse or guimpe or vestee you can find. Of course, if you expect to remove the jacket, it's a blouse you must have. However, with the jacket on, a lacy, fluttery crisp and sheer false front is just the thing. They cost less than a blouse and they are showing such fascinating ones in neckwear departments you will yield to the impulse to buy another and another—when you stop to consider, is a fine gesture in real economy.

Sailor Hats

The newest sailor hats have a wide range—from straw to oilcloth.

NOTHING ON HER

"My sister says she wouldn't marry the best man living." "My sister ain't particular that way, either."

EVERYBODY DOES

Maid—It's no use, ma'am, I am leavin'. I can't stand yer husband. Mrs. H.—It's a pity, Sarah, that I couldn't have selected a husband to suit you. Maid—Sure, ma'am, we all makes mistakes.

IN THE RIGHT CLASS

Bookkeeper—Shall I figure the thousand dollars we paid to Councilman Grabitall among the overhead expenses? Boss—Overhead? No. Put it with the underhand expenses.

LEGAL NOTICE

AN ORDINANCE TERMED THE ANNUAL APPROPRIATION BILL IN AND BY WHICH THE CORPORATE AUTHORITIES DO APPROPRIATE SUCH SUM OR SUMS OF MONEY WHICH MAY BE DEEMED NECESSARY TO DEFRAY ALL NECESSARY EXPENSES AND ALL LIABILITIES OF THE VILLAGE OF ANTIOCH, LAKE COUNTY, ILLINOIS, FOR THE FISCAL YEAR BEGINNING THE FIRST DAY OF MAY A. "Dress-Alike" Fashions Are Popular

By CHERRIE NICHOLAS

NO NEED to search the family tree to trace relationships, the new and popular mother and sister, sister and sister, likewise, little brother and sister fashions will give you a clue at a glance. This sentimental "dress-alike" program which is being carried out so enthusiastically is proving more than a mere passing fancy and it is with increasing interest that designers are turning their attention to this type of dress.

Sometimes the charming frocks in the family group are identical in color, fabric and detail and a pretty sight it is to see mother and daughter clad alike or big sister and little sister hand-in-hand gowned alike. Methods vary in that the dresses may be made alike and of the same material but differ in color. And again, the styling unlike, or vice versa, they may be styled exactly alike with the fabric contrasting. Oh, it's lots of fun designers are having, handling this proposition from a family relation standpoint, and the wearers are just as enthusiastic as the style creators over this merry fashion game now being played with everybody concerned a winner.

Little sisters love to get dressed up just alike, especially when styles are as adorable as the quaint full-skirted frocks made of everfast awning stripe cotton shown above in the picture. Mother takes pride in these dainty frocks too, for she has the satisfaction of knowing that they will tub without shrinking, safe washing assured by the scientific pre-shrunk feature of the cloth. Smocking trims the waist. Tiny full sleeves give a smart broad-shouldered look. Small buttons march primly up the back—comfortable dresses for big and little sister both.

Those cunning youngsters pic-

tured in the foreground are wearing cunning little outfits of fine-rib plique (you can get them in either pink or aqua) embroidered with sprightly astrological motifs keyed to the wearer. Swiss edging around the collar and bolero effect adds a dainty touch. The fun of it is, tags are attached to these adorable astrological fashions, entitling each child to a horoscope. The little sister dress has an inverted pleat for fullness and tiny puffed sleeves that give a feminine air. Brother's suit is simply cut with straight cuffed sleeves and brief straight trousers.

Another thing that is happening in the family fashion group is the enthusiasm with which milliners are entering into the scheme of things. A picture to go in the family album is listed above in the illustration. Here you see similar hats for mother and daughter created by Sally Victor, who has been turning out some charming versions of related fashions. Because the bonnet is so important a theme in the current season this distinguished artist includes a number of fluted bonnet brims often developed in a multi-colored straw weave. As summer advances one will also see mother and daughter wearing picturesque leghorns with duplicate trim. A happy prospect, we'll say! And please to note the dainty just-alike lingerie neckwear which mother and daughter are wearing in the picture.

Sister frocks of fine imported cottons are shown in enchanting versions. You can get models in princess styling in sizes for both big and little sister. Then there are picturesque high-waisted styles in gayly colored floral patternings on white Swiss organdie. Ruffles and little bows to match the sash add entrancing details.

© Western Newspaper Union.

SATIN IS FAVORED FOR SUMMER COATS

The newest use of satin is for summer coats. One slinky navy blue model is worn over a deep pink satin-back crepe formal. Other color combinations include purple, green and yellow; red, blue and orange stripes; lavender, white and black; in fact, hues that would dim the glory of Joseph's coat.

Skirts are shorter than ever in Vera Boren's collection. All of her gowns are molded at the waist and hips in the new corselet line, accentuating the fullness of the skirts. Leading materials shown are shantung, linens, sackcloths, "fantasy" crepes and wool laces.

The principal trimmings are good-luck insects—grasshoppers, locusts, flies and bees—which appear in droves on the models.

Avoid Daytime Frills on

Budget That Is Limited

To achieve planned wardrobe economy women with high style ambitions and low purchasing powers were advised by a New York style expert to forsake daytime frills and to confine their taste for caprice to evening clothes. For daytime wear she recommended a basic color scheme for each season, simple two-piece suits that can be worn either with or without the jacket, casual millinery, and conservative shoes with medium built-up heels. Above all she stressed the need for meticulous grooming, including attention to twisted stocking seams and run-down heels.

Teen Age Hats

Those little sailor hats with the ribbons under the chin have a smattering of followers, especially among the younger girls.

WHITE TUSSOR SUIT

By CHERRIE NICHOLAS

Here is a man's point of view on what a styled-up-to-the-moment woman should wear this summer. The renowned Creed, who is noted for turning out tailleurs de luxe, designed this classic suit of handsome white tussor with red scarf worn with a jaunty sailor from Rose Valois. The advance style program heralds the white suit with high color as a fashion of outstanding importance for summer.

WILMOT

The members of the Townsend Club and interested friends are invited to meet at Twin Lakes at the home of Mr. and Mrs. Otto Rasch, Tuesday evening, July 12.

A lunch of ice cream and cookies will be served.

Announcements have been received by friends of Mr. and Mrs. William Lieske, of Whitewater, telling of the arrival of a son, Roger Allen, on July 4th. Mr. Lieske was a former Science teacher and athletic coach on the U. F. H. School staff.

Miss Anna Kroncke has returned from a motor trip through the east with Mr. and Mrs. Jacob Kroncke and son, of Milwaukee.

Mr. and Mrs. Frank Bergsma, of Lake Geneva, announce the birth of a daughter, Beverly Ann, on June 30. Mrs. Bergsma was formerly Bertha Miller and well known in the community.

Mr. and Mrs. R. C. Burton, Bloomington, were dinner guests at Carey's Thursday.

Mrs. B. Nett and daughters were in Elgin for the day, Friday.

Robert Sarbacher is spending a week with his grandparents, Mr. and Mrs. John West, at Zion.

Mr. and Mrs. R. W. Schenning and Benjamin Nett attended an address by Dr. Townsend at Pleasant View Park in Milwaukee on Sunday.

Mrs. Emma Peterson, of Rochelle, Ill., spent the past week with Mr. and Mrs. Wayne Tilton. Sunday the Tiltons took her to the home of Mr. and Mrs. Clem Tilton at Honey Creek.

Mr. and Mrs. Ferdinand Beck have returned from a month's stay at their cottage at Grandview, Wis. Frank Schramm motored from Grand View with them and returned home with Mr. and Mrs. P. Levandoski and family, who have moved from Trevor to make their home at Grand View.

Mr. and Mrs. Ralph Marzahl and children of Hebron spent Sunday with Mr. and Mrs. Paul Voss. Norma and Mary Marzahl returned home with their parents after staying a week with Mr. and Mrs. Paul Voss.

Virgene Voss is spending this week with her aunt, Mrs. Frank Marzahl, at Richmond.

Mr. and Mrs. Ray Ferry, of Zion, were guests Sunday of Mr. and Mrs. Ray Bufton. Mrs. Ferry spent several days the last of the week with her parents, Mr. and Mrs. T. C. Loftus.

Dean Loftus returned to Detroit Sunday after a stay of several weeks at Madison and Wilmet.

Week-end guests of Mr. and Mrs. William Wertz were: Mr. and Mrs. Carl Breister, Mr. and Mrs. Victor Trefft; Mr. and Mrs. Walter Trefft and family; and Mr. and Mrs. Otto Trefft and family, all from Fond du Lac.

Bobby Rudolph is spending the week with his grandparents, Mr. and Mrs. John Peterson at Randall.

Mr. and Mrs. Frank McConnell, Jr., of Elgin are spending this week with Mr. and Mrs. Wm. Harn.

Mr. and Mrs. Wm. Anderson and daughter, of Woodstock, were week-end guests of Mr. and Mrs. Ray Rudolph.

Mr. and Mrs. H. D. Winsor and daughters of Davenport, Iowa, were guests Sunday of Erminie Carey.

Mr. and Mrs. G. W. Lewis and Laura Lee, Milwaukee, spent from Friday to Monday with Mr. and Mrs. Frank Burroughs.

Mr. and Mrs. Alex Schubert and children and Mrs. Fred Albrecht spent Sunday with Mr. and Mrs. Charles Clark at Richmond.

Mr. and Mrs. Norman Richards of Kenosha spent Sunday with Mr. and Mrs. Charles Schultz.

The annual chicken dinner and bazaar for the benefit of the Holy Name church will be held at the church on Sunday, July 17. Dinner will be served from 12 o'clock standard time, until all are taken care of.

Mr. and Mrs. Don Herrick and Mrs. Howard Herrick and daughter, Patsy, from Chicago, spent Monday at the Herrick farm.

Mr. and Mrs. Russell Elwood and son of Long Lake are spending this week with Mr. and Mrs. Harry McDougall.

Harold Ganger, is employed at the Rucke store and Grant Tyler at the Harbaugh Lumber Co., in Twin Lakes.

Anna Kroncke accompanied Mr. and Mrs. Jacob Kroncke, Milwaukee, Judge and George Kroncke, of Madison, to the home of Mrs. August Jorgenson at Kenosha Saturday for a family reunion honoring Mrs. Eda Hismann of Copenhagen, Denmark.

Mr. and Mrs. Louis Holdorf announce the birth of a son, Milton Frederick, on Saturday, July 9, at the home of Mr. and Mrs. Fred Frank.

Masses at the Holy Name church will be at 6, 8, 10 and 11 on Sunday morning.

Mr. and Mrs. Walter Procknow and family of Des Plaines, spent Sunday with Mr. and Mrs. Fred Frank.

All who own band instruments are invited to join the community band under the direction of Russell Ende, and meet at the high school on Friday nights for practice. Tuition is free.

Lutheran services will be in English at 9:30 on Sunday morning and in German at 10:45 at the Peace Lutheran church.

Rev. and Mrs. S. Jedele attended the twenty-fifth anniversary celebration of Rev. and Mrs. L. Baganz wedding and Rev. Baganz' twenty-fifth anniversary of his ordination to the ministry, at Burlington, on Sunday.

The Young Peoples Society of the Peace Lutheran church held a joint picnic with the Y. P. Societies from neighboring congregations at the Fox River Park on Sunday.

The Kenosha County Fair Board met at the high school building on Friday night to plan for the three day fair to be held at the school grounds Wednesday, Thursday and Friday, August 16-17-18, 3 days and 3 nights. Committees are securing special entertainment for evenings with WLS entertainers and a horse show, as possibilities. A dance on Friday evening, horse pulling contest, games and contests under the direction of George Price of the Kenosha Recreational department; music; 4-H Club exhibits for stock, and educational exhibits.

The fair has been made larger and premium lists showing prizes to be awarded will soon be issued. There will be all the usual concessions and rides, a historical exhibit with a contest for the ideal family.

Alde-Memolro Is Explained

An alde-memolro is an informal summary of a diplomatic interview or conversation which is delivered by an ambassador or minister to a foreign office.

Skyline Drive in Virginia

The elevation of the Skyline drive in Virginia varies from 2,500 feet to 3,800 feet. The highest point is at Skyland, which is ten miles south of Panorama, Va.

Billiards Old Game

The billiard game is at least 2,000 years old, was probably the first played in America by white people (Spaniards in Florida).

Some Fish Live Long

Under normal conditions it is believed that some fish, like the shark for instance, should live for 100 years and more.

FOR SALE

House on Orchard Street Lot 66 x 300.

Brick Home on North Main St., 7 acres of land—very fine Large 2-story home on South Main street, fine location for Tea and lunch room.

A beautiful country home, 5 acres, fruit trees, running water, near Cedar Crest golf course. Must sell. Good house, 1 acre land at Trevor, Wis., very cheap.

Several vacant lots in the village.

"I'm tired of being a teakettle baby..."

... we need the constant carefree service of an **AUTOMATIC GAS WATER HEATER**—and it's so easy to have, too!"

METER TEST IN ACTUAL HOME PROVES THE LOW COST OF AUTOMATIC GAS WATER HEATING

This water and gas meter check was made in the home of Mr. Fred K. Champlin, at 730 Wagner Rd., Glenview, over a 15-day period.

1. Cost of heating 1 gallon . . . 1/5 cent
2. Cost of hot water for 1 person each day (13.9 gallons) . . . 24 1/2 cents

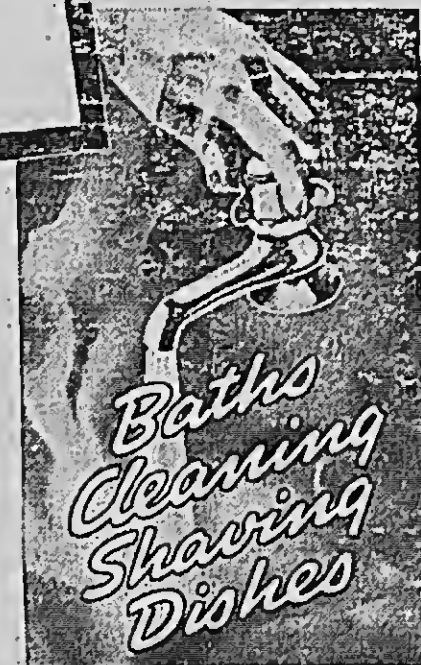

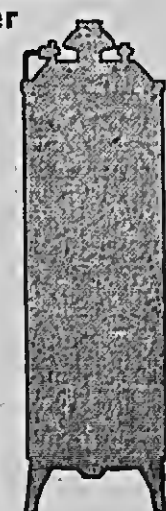

This included each person's share of hot water for all purposes; for cleaning, dishes and other household needs, as well as baths and showers.

To Insure Your Satisfaction

THREE MONTHS' TRIAL OFFER

On Modern Efficient Automatic Gas Water Heater

We offer you an up-to-the-minute efficient Automatic Gas Water Heater for only \$1.50 down, the balance payable on your gas bill, with up to 48 months to pay. Choose from number of well known makes and models on which offer applies. Liberal installation allowance and trade-in allowance for old water heater or furnace coil. If you are not satisfied at the end of 90 days, we'll remove the heater at our expense and cancel the balance of the contract. Ask about it NOW!

■ Baby is not the only one who profits when you install an Automatic Gas Water Heater. You, too, will enjoy constant hot water service because it saves you time and work when you wash dishes, launder, clean, and do the dozens of other household tasks that are so much easier with plenty of hot water. Your hot water tap is a regular "Fountain of Youth" for you ladies, too, because hot water is necessary for home beauty treatments, such as massages and shampoos. And certainly your whole family will thank you for a generous supply of hot water always on tap when they want warm, refreshing showers in sticky, sultry summer weather. . . . Find out about our special trial offer, our easy payment terms, and the special low gas rate for Automatic Gas Water Heating that saves from 26 to 40% over previous Automatic Gas Water Heating costs! Come in today!

FARM TOPICS

BUG POISON PINK INSTEAD OF WHITE

Purpose of Changed Color to Prevent Mistakes.

By James W. Boylan, Extension Vegetable Specialist, Massachusetts State College, WNU Service.

Farmers who purchase new stocks of lead arsenate and calcium arsenate this year may be surprised to find these materials pink instead of white. It isn't that pink insecticides will kill bugs any quicker but rather that the pink is added so human beings will not mistake these poisons for flour, lime, or other white powders.

The new color of these products is in accordance with the following announcement by the Agricultural Insecticide and Fungicide association:

"In the interests of public health and for the protection of users of agricultural arsenical insecticides, this industry has, by voluntary agreement, adopted and will use a pink coloring in all white arsenical products.

"It is the belief of the industry that this action represents a constructive effort by the industry to eliminate as far as possible the hazard of mistaken identity of the products and that in time the pink color will become established as a distinctive warning of the poisonous nature of the material."

Since this change in the customary appearance of the materials may possibly lead to some confusion, it is emphasized that the coloring agent has no effect whatever on the insecticidal value of the arsenicals. The new pink products are to be used according to the same recommendations that have applied to the arsenicals in their white condition.

The pink coloring will be a real advantage in serving as a ready means of identification so that arsenicals will not be mistaken for other white powdery substances as has happened when the materials have been carried over from one season to another and the label has been lost from the container.

Teach Chicks to Go to Roost and Save Trouble

After chicks reach four weeks of age they can be taught to roost, and the poultryman will have less trouble teaching them than he will if he waits until they are three to five months old, according to experience at North Dakota agricultural college.

All brooder houses at the college poultry farm are equipped with roosts, and it has been found that with little or no bother the chicks early form the roosting habit. The roosts are built of lightweight material in a framework and are hinged midway on one wall of the four-sided brooder house so they may be raised when not in use or for cleaning. Wire of medium mesh is attached to and underneath the roosts to keep chicks away from the droppings.

The rows of roosts, lowered in place when chicks are about four weeks old, incline from the floor back to the wall, thus being easily available and inviting to the chicks.

Head of Healthy Hen

The head of a bird supplies valuable indications of her activity. A hen in good laying condition will have comb, wattles and ear lobes full and large for her breed. The comb is stiff, smooth and waxy and bright red in color. With cessation of laying, the comb becomes shrunken, dry and rough. Like colored scales appear over its surface. Because of the rapidity with which a hen's comb changes its appearance with production, it gives a valuable clue to her state at the time of examination. The comb of the pullet, too, foreshadows her coming period of laying by expanding and coloring up.

Care of Leghorns

Leghorns are fairly dainty and small feeders but are excellent consumers of mash and very large consumers of green food. Mash hoppers in the leghorn pen should be kept filled at all times and after the birds have gotten into good laying condition, grain feeding can be reduced to one feed a day, preferably at night. Owing to their dispositions leghorns may be profitably confined to the houses for the entire year, but it is better if practicable to allow the brooding hens their liberty during the breeding season. That always results in stronger chicks and better hatches.

Brooder Temperatures

The temperature under the edge of the hover two inches from the litter should be from 95 to 100 degrees Fahrenheit the first week, 90 to 95 degrees the second week, and gradually lowered until no heat is needed. The amount of heat and the length of time it is needed depends on the season and the day. The heater, however, should be left in the brooder house a while after the heat is discontinued for possible use in unfavorable weather.

KNOW THYSELF

by Dr. George D. Greer

HOW DOES THE OUIJA BOARD WORK?

THIS is not magic nor even mys-
tery; it is straight psychology.
The principle is that of unconscious
or involuntary movement. When
an idea takes possession of the mind
it affects the muscles that would be
used if that idea were put into prac-
tice. Table-tipping and other such
phenomena are also in this class.
The fact that the participant does
not know that his mind is directing
his muscles—even though ever so
slightly—makes the whole perform-
ance a bit mysterious, yet the truth
of these statements can be easily
and convincingly demonstrated in
the psychological laboratory. Dr.
Joseph Jastrow, in his "Wish and
Wisdom," says: "The tendency of
a thought to find an outlet in the
muscles is inherent in the action of
the nervous system; and that and
nothing more mystic is the secret of
ouija."

Aces Play Silver Lake Again Sunday

The Antioch Aces, behind the pitching of Kip Carlson, defeated the Pete's Tavern baseball team Sunday at the Victory Park diamond by the score of 7-2. The game was very close until the ninth inning when Nixon, the Antioch second baseman, hit a long home run with two men on the bases. Each team was credited with nine base hits, but Carlson was more effective in the pinches.

Next Sunday the Aces will play a return game with Silver Lake at Silver Lake. The batters for next Sunday will be Koehn and Schneider.

The box score:

Antioch Aces (7)

Worked to Pay Passage
Steamship companies in the early days had systems whereby passengers in the lowest fare class could help pay for the trip by carrying wood for the boilers. When the boat stopped for fuel, these passengers would carry wood from storage places on the shore to the boiler rooms.

If You're Planning To Build

By W. S. Lowndes
Director, Schools of Architecture and Building
International Correspondence Schools

No matter what size house you are planning to build, or how much you intend to spend, the living room for general family use is very important. It should have plenty of sunlight, a good outlook and should be finished so as to produce a comfortable and homelike effect. In obtaining this effect, a fireplace is often desirable, as is a sun parlor or a porch, placed adjacent to the living room. In large and pretentious houses other rooms are arranged that perform some of the functions of the living room in more modest structures.

A sun room or sun parlor is a common feature in even the most inexpensive homes. It may consist of a porch enclosed in glass, or it may be a special room having an abundance of windows. When the windows are hung wide open this room in reality becomes a porch. The exposure should be toward the south so as to obtain an abundance of sunlight in the winter months. Sun rooms are usually fitted with special furniture and decorated with plants. Individually of the builder, can be cleverly displayed in developing plans for the sun room.

Houses With Garages Attached.
The problem of attaching a garage to a house is one that is rather difficult to solve. The large doors of the garage, which are open frequently, are generally too conspicuous and do not harmonize with the rest of the exterior. It is very desirable to locate the garage so that the doors will not be in front of the building, but to the side or rear.

"Shades of Death" Now Park
One of the first discovered spots of rugged stony beauty in Indiana's foothills, was the "Shades of Death" which has become more popularly known through the state as the Shades park.

Wounds on Trees
A mark or wound made on a growing tree stays at the same height since the tree grows at the top.

GUNMAN EARNS HIS BREAD BY MISSING

Former Killer Is Now Mild-Mannered Movie Actor.

Hollywood.—Manuel Zamora, a mild mannered Mexican, admits he has killed 62 persons in his life, but currently earns his living by shooting bullets very close to movie actors without hitting them.

Between missing actors, Manuel spends his time keeping his studio arsenal in lethal order, his placid Hollywood existence affording sharp contrast to his early years.

Back in 1916, Manuel and his roommate, Zeus Hernandez, terminated their educational careers by joining opposing armies—Manuel with Carranza's federal forces and Zeus with the revolutionist, Poncho Villa.

Once Chased Villa.
During the next few months, Manuel recalls, the army spent its time chasing Villa and in return spent more time fleeing from Villa. He estimates during six months of soldiering he killed an average of ten revolutionists a month.

Manuel left the army when his ankle was shattered by a stray bullet and was sent to Mexico City by train. The train, however, was ambushed by Villa's men, who executed all passengers in uniform and searched all civilians. Manuel was wearing civilian clothes but his discharge papers from Carranza's army put him in with a group to be executed.

While chatting with Latin sociability and fatalism with the men assigned to shoot him, Manuel heard a familiar voice. It was Zeus, his old roommate, who now was a lieutenant with Villa, and who obtained Manuel's release.

By the time the United States entered the World War Manuel had drifted to Texas and enlisted in the American army. He never reached the front because officers found he knew all about every type of machine gun, knowledge gained when he was obliged to convert every kind of machine gun into a workable weapon for Carranza's army. So Manuel was kept at Kelly Field, Texas, instructing American fliers in the care and operation of their machine guns.

Turns Down Gang Job.
When the war ended he declined a job as "trigger man" for a leading Chicago gangster and drifted toward Hollywood, where his shooting ability kept him busy.

He did his first fancy shooting in "Wings," when he handled the machine guns which riddled planes. This was followed by many other shooting assignments.

For shooting blanks in a machine gun he gets \$25 a day, and when he shoots "live shells" the rate jumps to \$50 a day.

During 11 years Zamora has inflicted only one minor casualty—a few weeks ago, when in a scene he was to shoot a row of bottles from behind Chester Morris' head. His aim was accurate, as usual, but a splinter from a bottle inflicted a slight wound in Morris' neck.

Family Saves Money by Using 54-Year-Old Fire

New Straitsville, Ohio.—Going on a picnic is just a matter of stepping into the back yard and placing a skillet on the ground for the Dave Rush family.

An underground fire which burns perilously near his house furnishes the heat, and Rush conserves on fuel in his home.

The fire has been burning 54 years and has consumed an estimated \$50,000,000 worth of coal. Works Progress administration workers are attempting to confine the blaze within its present area. Meantime, the flames spread nearer the Rush home, but the family takes advantage of the heat instead of obeying the WPA warning to move away.

"I see no need of wasting fuel to cook my meals inside the house on a nice day," said Mrs. Rush, "when there's so much heat going to waste with a stone's throw of the cook stove."

So the Rush family "goes out" for dinner.

"It's perfectly safe if you know where to set the table," says Mrs. Rush, "but everything is liable to burn up if you get careless."

Girls Drive Faster, Get More Tickets, Survey Says

Boston.—Women operate automobiles faster and safer than men, according to a survey conducted among students at Boston university.

The average speed of women drivers at the university is 39 miles per hour as against a 37 mile-an-hour rate among men students. In addition, the coeds showed an average of one and a fourth accidents apiece while the males admitted to an average of two accidents each.

Both groups listed road hogs, cutting in and horn-blowing as major driving hazards although one young lady listed a smooth looking man in an adjacent car as her greatest problem.

Because of their tendency for higher speeds the girls led the boys in tickets, 26 per cent of the sweet things receiving invitations to tell the judge how fast they were going. Twenty per cent of the boys succumbed to the speed mania and were caught.

Wrestling Is Not So Difficult When Done With a Rock

Antioch's own Jim McMillen mixed it all over the place with King Kong, the "Abyssinian wonder" last Friday night, at the Grayslake arena. Approximately a thousand fans watched the wrestling match and those who were half-way reasonable got their money's worth. They had a chance to see the Abyssinian wonder wondering what it was all about while McMillen went to town.

King Kong, weighing about two hundred and thirty-three pounds has a he-man covering of hair all over his body that gained him the nick-name of King Kong. Maybe under ordinary circumstances he might have reflected some credit on his namesake, the big tree-crashing gorilla, but King Kong was just up against it Friday night.

Jim McMillen was feeling a bit prankish, and Jim is something of a man-mountain and not to be dismissed lightly when he is in a prankish mood. Jim just wouldn't let King Kong carry through with dignity. Jim delighted the spectators by taking King Kong down and sitting on his chest, tossing him outside of the ring into the mud and playing various other juvenile tricks.

The crowd liked it but King Kong didn't, especially that part about the mud. Maybe they just don't go for mud in Abyssinia. At any rate King Kong seemed to consider it the crowning insult when he lit in a mud-hole just outside the arena and he climbs back in with a nice big rock in his hand and goes for Jim's cranium. He landed, too, once, twice, and maybe thrice, because our Jim wasn't looking for any such poor sportsmanship from his majesty, the King.

The long and short of it is that when King Kong gave up wrestling and took to hammering on McMillen's head with a rock he began to get better results. For a half-minute Jim was dazed with the ferocity of the unexpected blows showered on his head by the powerful Abyssinian, but just then some intrepid guy, name unknown, climbs into the arena from the ringside and takes a vicious poke at the King, who was just about to decide that rock fighting was right up his alley.

The unknown was quickly followed by others and in a trice the arena was transformed into a free-for-all, with all the volunteers bent on teaching the King some of the ethics of the ring. It was just about that time that Jim McMillen shook his battered head, recovered his aplomb and woke up to what was going on.

Valiantly Jim tore his way through the crowd, rescued King Kong and again took him unto himself. And that's all in the world that saved King Kong for Abyssinia. Deferring to McMillen's priority of right the volunteer scrapers retired to the ringside and allowed McMillen to finish him off.

And except for a few tight-wads who are never satisfied with a bargain the spectators went home feeling that they had their money's worth.

NOTICE OF PUBLIC HEARING

Notice is hereby given by the First Fire Prevention District of the Township of Antioch, in the County of Lake, State of Illinois, that a tentative budget ordinance and tentative appropriation ordinance for said Fire District for the fiscal year beginning July 1st, 1938, and ending June 30th, 1939, are now on file and conveniently available to Public inspection at the residence of the secretary of the board. Notice is further given that a public hearing on said budget and appropriation ordinance will be held at 9 o'clock p. m., D.S.T., the 25th day of July 1938, at the home of Clarence Crowley in this Fire District.

Dated this 14th day of July, 1938, First Fire Prevention District of the Township of Antioch, in the County of Lake, State of Illinois.

By E. L. SIMONS, Secretary.

Pomegranate Wood for Castanets

Good castanets are made from pomegranate wood. They must resist the violent impact of fortissimo and staccato movements and if they have the slightest flaw will soon splinter. They are called chestnuts after the Moorish percussion instruments and because they look like chestnuts when separated.

Early Study of Sunspots

The ancient Chinese saw sunspots and speculated about their significance. Fritz figured sunspot epochs back to 300 A. D. But it was not until invention of the telescope in the early Seventeenth century that study of spots was possible in a scientific manner.

Don Quixote and Hamlet
Don Quixote and Hamlet were both written in about the same period and resemble each other in that both heroes strive to "set right the time so out of joint."

Color Lovers

Beautifully colored rather than fragrant flowers are a greater attraction to butterflies, whose sight is keener than their sense of smell.

Railroads Explain Why They Would Cut Wages

Railroad wage rates in 1938 are at the highest average level in history, according to a detailed analysis of railroad and railroad wages, compiled by the rail carriers of the United States.

General business conditions and the cost of living, according to this study, do not justify the continuance of present wage levels, while the railroad industry, facing disaster, cannot sustain them. The study presents, in complete detail, the situation which compelled the railroads to seek, under the provisions of the Railway Labor Act, a reduction of fifteen percent in present wage rates.

The railroads' study, based on official records, shows that 1938 average railroad wages are higher, whether measured in dollars and cents or in purchasing power, than they were in 1929, the year of greatest national income, or in 1932, the year of lowest national income. The study shows also that the return on money invested in providing railroad plant and equipment is now less than one-tenth the rate of return in 1929 and less than one-third the return in 1932, the previous depth of the depression.

The causes for these changes are analyzed as less traffic hauled at lower average revenues, in contrast with rising prices, mounting taxes, and an average wage level now twenty per cent higher than it was in 1932.

The railroads' study also considers other reasons to which railroad difficulties are sometimes ascribed, and shows from Government authorities that railroads as a whole are not over-capitalized, and that fixed charges are neither excessive, unjust, nor a major cause of the present critical condition of the lines.

Carried Ox on His Shoulders

Milo of Milon of Crotona, a Greek athlete who lived about the end of the Sixth century B. C., carried an ox on his shoulders through the stadium in Olympia. He was six times crowned at the Olympic games and six times at the Pythian for wrestling. His name was a synonym for strength throughout the civilized world and he commanded the army which defeated the people of Sybaris in 511.

Castle of Merry Old Soul

At the old Roman town of Colchester, in Essex, England, tradition places the castle of "Old King Cole" of the nursery rhyme. Many visit the Eleventh century castle because it has the largest keep of any castle in England.
